

## STATEMENT OF QUALIFICATIONS

### Key Personnel

---

#### Randi Whiddon, LEED AP Project Manager

Randi Whiddon has over ten years of experience in the built environment industry that includes managing land development rezoning/entitlements, multi-family, industrial, corporate offices, churches, schools and municipal projects. Her experience has given her the detail oriented perspective of architecture and specifications coupled with a broad overview of land and business development. This combination of experiences gives her a set of unique capabilities in understanding the complex needs of land owners/developers, municipalities and corporations while solving their problems, managing projects and developing a book of business for both the client and EcoAsset Solutions.

Her technical capabilities include computer program proficiency in Autocad, InDesign Suite, Microsoft Suite and Social Media tools. Her background includes architecture, urban planning & business development. She is focusing her sustainability efforts on the built environment and fleet management of Sustainability Action Plans, Green House Gas studies, grant writing and the development of Energy Finance District opportunities.

Mrs. Whiddon believes in the added value of active community involvement. She currently sits on the Tampa Theatre Foundation Board and is past president of the Theatre's Restoration Society. She also participates in Leadership Tampa Alumni as a Cabinet member, Programs Committee Co-Chair and LT07 graduate. In addition to these two commitments she sits on the marketing committee of both the Glazer Children's Museum and Warrick Dunn Foundation's 100 Men & Aprons. She has a love for community, people and a sustainable approach to both business and our earth.
